

## Mail Manager LE

### High-performance mail management. Low-impact price tag

You don't have to handle high-volume mail jobs every day to deserve the profit-boosting and productivity-enhancing features of Mail Manager™. You won't need expensive mainframe computers, either — just a PC and Mail Manager LE™, the leading choice of small and occasional mailers for professional-quality presort power at a price even a sole proprietor can afford.

Like its high-powered "big brother," Mail Manager LE allows you to presort mail jobs quickly and easily, within a user-friendly interface that doesn't require an advanced degree to use. It can pay for itself in record time, too, thanks to the built-in economy made possible by encoding your jobs against the USPS® ZIP + 4® database — updated six times each year with every Mail Manager LE subscription.

Put your profits where they belong: in your pocket. Choose Mail Manager LE. Only from BCC Software.

## MailManager LE

- Intuitive workflows for short learning curves and fast returns on investments
- Money-saving presort functions that minimize postage costs, and time-and labor-saving features enabling fast job turnarounds
- USPS CASS and PAVE Certification, for full compliance with the latest updated Postal Service™ regulations and postage discounts
- Top results from the industry leader for PC-based mailing software solutions

Import data  
directly from any  
**Microsoft Excel** file!

## Features

- High-productivity, high-value solution
- Intuitive: easily integrated and simple to use
- Imports files directly from Microsoft® Excel®
- Opens door to full postal discounts
- USPS ACS integration
- Value-added features: graphical label designer, USPS Intelligent Mail® barcode generation capabilities, and more

## Top mailing efficiency. Bottom-line friendly.

Stamps got you licked? High-volume professional mailers understand the value of software that can do the heavy lifting for them — ZIP + 4 encoding and presorting a job to ensure maximum efficiency and minimum postal costs.

Mail Manager LE from BCC Software delivers that same productivity-enhancing profit-boosting power. This “lite edition” of the industry-acclaimed Mail Manager is still bursting with features much in demand by occasional mailers of any size. Why pay full-price postage when you can save money and do it yourself?

The road to increased savings and productivity begins with Mail Manager LE. Only from BCC Software.

## Annual Subscription Includes

- Bimonthly ZIP + 4 data files
- Software updates
- Unlimited toll-free customer support
- Online User Forums membership

## Mail Manager LE Delivers

- Intuitive software design, as easy to learn as it is to use
- Maximum postal discounts and the peace of mind of USPS compliance
- Efficiency-boosting features that let you spend less time mailing, and more time building your business
- Integration with BCC’s in-house address correction services, for up-to-date lists and more efficient mailings

## Premium LE Options

Get even more LE functionality with these value-added extras.

Enhanced Carrier Route / eLOT™ lets you generate Enhanced Line of Travel assignments to meet automation presort and sequencing requirements and claim Enhanced Carrier Route discounts.

Periodicals delivers appropriate postal discounts for magazine or newspaper mailings occurring four or more times per year.
